literature_agent.md

Used: literature role

- Read supplied papers and earlier manuscripts
- Extract theorems, conditions and page references
- Separate exact results from approximations
- Share references and unresolved questions

proof_agent.md

Used: proof role

- Keep prescribed intensity and geometric cutoffs
- Construct a stationary, simple point process
- Derive full densities at orders 2, 3 and 4
- Prove the exact laws or report a precise gap

SKILL.md

Available: math-literature-check

- Specify the claim and search scope
- Read the source theorem and its assumptions
- Show the implication or identify the mismatch
- Record evidence; no match does not mean novelty
